

HALEY WARD

ENGINEERING | ENVIRONMENTAL | SURVEYING

## Architectural Services

A natural addition to Haley Ward's growing building services unit, we have Architectural Services to support the client-centered, team-driven design process. Our approach considers all aspects of design, the needs of the many stakeholders involved in a project, and the effective use of clients' resources to produce affordable designs.

### SERVICES FOR

- Civic architecture, including municipal buildings, police stations and fire stations
- Library architecture
- Religious architecture
- Commercial architecture
- Educational architecture
- Residential architecture, both large and small scale
- Existing Facilities Review
- Pre-design

### EMPHASIS ON

- Historic preservation
- Code compliance
- Master planning
- Existing facilities renovation
- Public safety projects

Our designs are informed by our technical expertise and the rigor we use in satisfying architectural needs and programs. Our business practices require us to be forthright, honest and clear in the project scopes we develop. The power of good architecture lies in its ability to make the world a better place when it is put in the service of clients and communities. This belief sustains our architectural services and informs our art and goals as well as our ultimate purpose as locally based, globally thinking architectural designers.
