dwelch@haleyward.com*

Haley Ward offers a full range of BIM services for the Architect, Engineer, General Contractor, Building Trades, Facility Manager, and Owner. Our BIM services use the latest software and technology to create models of your building designs, allowing for more accurate and efficient planning and execution of construction projects.

Our professional team of engineers, architects, designers, and technicians are uniquely skilled in the nitty-gritty of CAD and the complexity of BIM and dedicated to providing exceptional customer service. As your partner, we work closely with you to understand your project requirements and deliver custom solutions and meet your specific needs

SERVICES PROVIDED:

- BIM Management & Coordination
- Reality Capture
- As-Built Services
- BIM Modeling
- CAD Drafting
- COBie & CMMS Deliverables
