

# Dam Inspection, Repair & Removal Services

**Haley Ward has been involved with over 100 dams throughout New England.** Projects have included Phase 1 and II studies and rehabilitation and repair of older dam facilities. We provide dam inspections and emergency operations plans as required by state and local agencies. We work successfully with local and state agencies to provide safe and cost-effective solutions for dam compliance for both private and public entities, and we have performed multiple inspections for the U.S. Army Corps of Engineers.
