

Local, State & Federal Permitting

Haley Ward offers a full in-house and experienced permitting team navigating local, state, and federal regulations and confidently guiding projects through every step of the permitting process.

The process of obtaining permits can be complex, involving several levels of permitting depending on the project's size and impact. We understand that each level of permitting comes with its own unique challenges and compliance criteria as well as coordinating various regulatory and non-regulatory groups' interests.

SERVICES PROVIDED:

- Planning
- Regulatory Guidance
- Land Surveying
- Wetlands Mapping & Delineation
- Wetlands Impact Assessment
- Wetlands Mitigation
- Stormwater Management
- Road, Site & Utility Design
- Traffic Impact Assessment & Permitting
- Natural Resources Protection Act
- Environmental Assessments
- Construction Monitoring & Administration

At Haley Ward, we offer:

Regulatory Guidance: Expert advice on navigating various regulations from small subdivisions to large complexes

Proactive Planning: Identify suitability for the intended use, integration with existing site features & environmental impact to anticipate potential roadblocks & challenges

In-house Experts: We can streamline the process with our in-house experts to minimize overall costs, development time & environmental impact while maximizing the property's potential

Time and Resource Savings: With our team by your side, you can focus on your project's core objectives, knowing that the permitting process is in capable hands

Local Permitting: Working closely with local authorities to obtain necessary permits

State Permitting: Ensuring compliance with state regulations & requirements

Federal Permitting: Navigating the complexities of federal permits for your project
